Dear Hiring Manager,

I came across your ad for a full-time software role online and was immediately drawn to it. I am extremely passionate about computer science and your job description fits the job I have been looking for!

I am a dedicated, detail-oriented, enthusiastic, motivated graduate, currently seeking a position with my computer science degree where I can make a real difference utilizing my talents. I am deeply passionate about computer science and am always looking to learn as much as I can so that I can do my job to its fullest.

While my past work experiences have not been in the computer science field, my commitment to my jobs has demonstrated my determination to do whatever it took to help me reach my goal of attending UW-Madison and graduating in just three years, while also developing soft skills along the way, such as work ethic and a desire to learn and grow.

Please check out my personal website which showcases my portfolio:

I look forward to hearing from you.

Sincerely,

Elijah Mentch
